First Airbus Aircraft Joining MF Fleet

Passing through the Watergate, Xiamen Airlines' first Airbus aircraft, a brand new A321neo, arrived at Xiamen Gaoqi International Airport on January 1, 2023. With the joining of this aircraft, Xiamen Airlines officially opens a new chapter in the operation of Airbus fleet and this dual-brand fleet operation mode will provide a stronger capacity guarantee for Xiamen Airlines' future development.

World Class!

In October 2022, Xiamen Airlines was awarded the World Class accolade by APEX (Airline Passenger Experience Association). More importantly, Xiamen Airlines is the first Chinese airline company to be recognized by APEX as "top-eight" airline companies in the world.

The World Class accolade is APEX's highest-value award. It takes into account an airline's performance across multiple dimensions, including safety, epidemic prevention, sustainable development and cabin service, based on the actual flight experience of professional service auditors.

Another Year of Safe Operation

In 2022, Xiamen Airlines Group (including Hebei Airlines and Jiangxi Airlines) successfully completed its safe operation, with a total of over 7.4 million hours of safe flight.

New Destinations!

This April, Xiamen Airlines will expand the network. We will fly to new destination of Hanoi (XMN-HAN, MF869/70, 4 flights/week) and resume flights to Osaka (XMN-KIX, MF839/40, daily) and Rangoon (XMN-RGN, MF8669/70, 3 flights/week). Also, we will fly daily to destinations including Sydney (XMN-SYD, MF801/2), Melbourne (XMN-MEL, MF803/4) and Jakarta (FOC-CGK, MF855/6).

Modification of Passenger ID Entry Rules

According to the requirements of the National Immigration Administration and CAAC to strengthen the real-name boarding system for foreign passengers, from 11th April, 2023, entry rules of domestic flight passengers' ID information are modified. Please refer to *2023-OIB-016A(ENG) Notice on the Modification of Entry Rules of Passenger Identity Information of Domestic Flights* for detailed information.
